Pengenalan

You can give a brief description of the topic you want to talk about here. For example, if you want to talk about Mercury, you could say that it's the smallest planet in the entire Solar System

Objektif

Mercury is the closest planet to the Sun and the smallest one in the Solar System—it's only a bit larger than the Moon. The planet's name has nothing to do with the liquid metal

KONSEP

Mercury is the closest planet to the Sun and the smallest one in the Solar System—it's only a bit larger than the Moon. The planet's name has nothing to do with the liquid metal

Cadangan Hos:
